THE IDEAL SPOT FOR YOUR DAIRY FARM SUCCESS

This property is located only 10 miles from Continental Dairy Processing Facility Southwest in Littlefield, Texas, 51 miles from Laprino Foods Cheese Processing Facility in Lubbock, Texas, and 65 miles from Southwest Cheese Facility in Portales, NM.

45 MINUTES FROM LUBBOCK, TX

Known as "Hub City," Lubbock is a thriving Regional City with an extensive network of hospitals, fantastic shopping, superb dining, and a cultural center for entertainment with venues like the recently constructed Buddy Holly Hall, Lubbock International Airport, and home of Texas Tech University, a Tier 1, D1 University which is part of the elite Big 12 Conference. Finally, just an hour and 45 minutes away is Lake Alan Henry, a great place to relax and a world-class reservoir for black bass fishing.

Not intended to solicit buyers or sellers currently under contract with a brokerage. Franchise office is independently owned and operated.

AN EFFICIENT AND PLANNED FACILITY

TJ's Dairy has a centrally located main dairy barn, an excellent dry cow/springer facility, and a calf ranch.

This operation's overall layout and design have an excellent infrastructure that can run each unit with dedicated water wells and storage tanks or, in certain situations, move water from one facility to the other. The current setup allows for redundant water, power, water storage, and on-site electrical generating capacity.

With years of thought and planning, the layout of this operation has created built-in efficiencies.

All information provided is believed to be accurate; however, no liability for its accuracy, errors or omissions is assumed. Buyers should verify the information to their satisfaction.
Not intended to solicit buyers or sellers currently under contract with a brokerage. Franchise office is independently owned and operated.
